

Cypress LIVING

Experience MATTERS.

Cypress Living stands as Southwest Florida's premier resource for comprehensive management services, with an established track record of development success and innovative care delivery models. Backed by Lee Healthcare Resources—known for its rich history of visionary leadership and community involvement—the organization has played a pivotal role in shaping the future of healthcare and aging services in the region, beginning with the master planning of the 400-acre HealthPark Florida campus.

Cypress COVE

Love WHERE YOU LIVE.

Through decades of innovation and commitment, the Cypress Living team led the development of Cypress Cove—an award-winning Life Plan Community known for its exceptional amenities, elevated culinary experiences, and full continuum of care, including Independent Living, Assisted Living, Memory Care, Skilled Nursing, and Rehabilitation. Nestled within HealthPark Florida, Cypress Cove's 60-acre campus blends elegance, innovation, and peace of mind—surrounded by natural beauty and seamlessly connected to a vibrant cultural hub, offering a lifestyle that is both enriching and secure.

The recent expansion, The Oaks, added 48 luxurious residences and a stunning new clubhouse featuring Cypress Cove's third restaurant venue. With its completion, Cypress Cove now offers more than 575 residences—a milestone that redefines senior living in Southwest Florida and sets a new standard for excellence.

Cypress AT HOME

One Trusted Team. ONE SEAMLESS APPROACH.

Building on its legacy of innovation, Cypress Living introduced Cypress at Home—a suite of in-home services designed to empower older adults to thrive safely and independently while aging in place. Through an integrated approach that includes concierge medicine and personalized care coordination, Cypress at Home delivers seamless, high-quality supportive care right in the comfort of home.

Today, Cypress Living continues to guide the evolution of HealthPark Florida—a unique blend of residential, medical, and commercial environments designed to support whole-person wellness. The campus is home to three specialty hospitals offering advanced care alongside vibrant living options and lifestyle amenities. With strategic oversight of more than \$50 million in annual revenue, the Cypress Living team remains committed to operational excellence and exceptional outcomes. This integrated model reflects Cypress Living's vision for redefining aging—where wellness is not just a service, but a way of life.

Cypress Foundation of Southwest Florida

With the recent launch of the Cypress Foundation of Southwest Florida—a public charity dedicated to cultivating, innovating, and enhancing abundant living for aging adults in Southwest Florida—its mission also extends to supporting workforce development and continuing education throughout the region and beyond. This spirit of purposeful living and impactful giving continues to carry forward the original mission of Lee Healthcare Resources.

Purposeful Living, IMPACTFUL GIVING.
